Part-Time Optometrist

Part-Time* | *Multiple Openings* | *Connecticut

The MedServ Group is seeking licensed Part-Time Optometrists to provide comprehensive eye care to residents in nursing homes and long-term care facilities throughout Connecticut. Multiple openings are available statewide. Optometrists will perform routine and medical eye examinations, diagnose and manage ocular conditions, prescribe corrective lenses, and collaborate with healthcare staff to support residents' visual health and quality of life.

Position Details

- **Position:** Part-Time Optometrist
- **Employment Type:** Part-Time / Independent Contractor (1099)
- **Schedule:** Flexible, part-time schedule; visits arranged based on facility needs
- **Location:** Multiple locations throughout Connecticut; travel to nursing homes and long-term care facilities is required
- **Required Licensure:** Active, Connecticut optometry license
- **Compensation:** 30%–40% of collections (22-25 patients per visit)
- **Reports To:** The MedServ Group leadership / designated clinical operations team

Key Responsibilities

- Conduct comprehensive eye examinations for nursing home and long-term care residents.
- Diagnose and manage common eye conditions, including cataracts, glaucoma, macular degeneration, diabetic retinopathy, dry eye syndrome, and other age-related ocular diseases.
- Prescribe eyeglasses and other corrective lenses as needed.
- Maintain accurate electronic medical records and complete clinical documentation promptly.
- Educate residents on eye health, disease prevention, and treatment compliance.
- Collaborate with facility staff and other healthcare professionals to coordinate resident care.
- Follow applicable state and federal regulations, HIPAA requirements, and professional standards.

Ideal Candidate

The ideal candidate is a compassionate and skilled optometrist who enjoys working with older adults and can provide high-quality eye care in nursing home and long-term care settings. The candidate should be comfortable working independently while collaborating with facility staff.

Education & Credentials

- Doctor of Optometry (OD) degree from an accredited institution.
- Active, unrestricted Connecticut optometry license in good standing.
- Experience working with geriatric populations preferred.
- Strong clinical diagnostic and patient-care skills.
- Ability to work independently and effectively within a multidisciplinary healthcare team.
- Excellent communication and interpersonal skills.
- Familiarity with electronic medical records (EMR) systems preferred.

Compensation

30%–40% of collections (22-25 patients per visit)
