Job Posting

The University of Michigan Department of Anesthesiology is recruiting skilled intensivists to join our growing Division of Critical Care Anesthesiology.

The Department of Anesthesiology is committed to transforming the field while advancing patient care, medical education, research, and service to society. Our department includes a large interdisciplinary team of more than 920 employees, including over 200 faculty, 135 residents and fellows, and approximately 250 certified registered nurse anesthetists. The department is currently ranked #2 nationally in NIH funding and #6 in the nation for core residency training.

The Department of Anesthesiology offers broad clinical expertise, established academic programs, impactful research, strong institutional resources, and the opportunity to work within a growing, integrated academic medical center known for excellence in care.

The successful candidate will join a highly productive, multidisciplinary critical care team with excellent opportunities to pursue clinical interests, contribute meaningfully to patient care, teach and mentor trainees, and participate in academic and scholarly activities at a leading medical center. Faculty also enjoy the opportunity to live and work in Ann Arbor, consistently recognized as one of the best small cities in the country.

Successful candidates will receive a faculty appointment at the University of Michigan Medical School. We offer competitive compensation and benefits package, including a guaranteed salary, incentive opportunities, and relocation support.

The Division of Critical Care Anesthesiology serves the Surgical Intensive Care Unit and Cardiovascular Intensive Care Unit, accepting patients from operating rooms at multiple locations. The dedicated ICU team includes faculty physicians and APPs and supports robust training opportunities for anesthesiology residents and fellows within a large and thriving fellowship program. Clinical schedules include a mix of daytime ICU rounds, 12- to 24-hour in-house shifts, in-house night shifts or at home night call, and occasional operating room anesthesia coverage.

Responsibilities

- Direct Patient Care: Lead or participate in the daily medical management of critically ill patients, including treatment planning, physiologic assessment, and adjustment of therapies based on advanced monitoring and evolving clinical status.
- Airway and Life Support Management: Provide complex airway management, oversee mechanical ventilation, and participate in the management of advanced life-support therapies, including extracorporeal membrane oxygenation and mechanical circulatory support, as applicable.
- Multidisciplinary Leadership: Lead multidisciplinary ICU rounds and coordinate care with surgeons, medical subspecialists, pharmacists, respiratory therapists, advanced practice providers, nurses, trainees, and other members of the care team.
- Perioperative Critical Care: Provide perioperative critical care for patients following high-risk major surgery and other complex surgical, transplant, trauma, or medical conditions, depending on clinical assignment.

- Rapid Response and Resuscitation: Serve as a critical care leader in hospital-wide emergency response, code, and rapid response situations.
- Education and Mentorship: Teach and supervise medical students, residents, fellows, and other trainees in clinical and academic settings.
- Academic and Quality Contributions: Participate in scholarly work, quality improvement, clinical innovation, research, or leadership activities aligned with the candidate's interests and departmental priorities.

Qualifications & Requirements

- Education and Training: MD or DO degree, completion of an accredited anesthesiology residency, and completion of a critical care medicine fellowship.
- Board Certification: Board certification or eligibility in Anesthesiology and subspecialty certification or eligibility in Critical Care Medicine through the American Board of Anesthesiology.
- Licensure: Eligibility for medical licensure in the State of Michigan.
- Clinical Excellence: Demonstrated commitment to high-quality, patient-centered care in a multidisciplinary academic environment.
- Teaching and Collaboration: Interest in teaching, mentorship, teamwork, and contributing to the academic mission of the University of Michigan Medical School.
