

Riverside Yacht Club | Riverside (Greenwich), Connecticut Clubhouse Manager

About the Club

Founded in 1888, Riverside Yacht Club is a distinguished private, member-owned, nonprofit club and the second-oldest yacht club in Connecticut. Established by George I. Tyson, a prominent Riverside summer resident and owner of the yacht *Nirvana*, the Club's legacy began with his personal funding and construction of the original Victorian-style clubhouse in 1889. Tyson served as the Club's first Commodore for eight years. In the late 1920s, members purchased the property from the Tyson estate, leading to the construction of the current clubhouse in 1929.

Riverside Yacht Club is a year-round, family-focused, and community-oriented club known for its deep sailing heritage and strong culture of volunteerism. Membership is predominantly composed of Greenwich residents who share a lifelong passion for sailing and boating. The Club offers comprehensive programs for all ages, including instruction, racing, cruising, and junior sailing on Long Island Sound and beyond.

The marina is a defining asset, featuring more than a linear mile of slip space on modern concrete docks, supplemented by deep-water moorings. The Club hosts major summer regattas and is home to the largest frostbiting fleet in the United States, reinforcing its national reputation within the sailing community.

Beyond boating, Riverside provides a full complement of clubhouse amenities, including fine dining, tennis, pickleball, swimming, and robust youth programming. Food and beverage operations play a central role in the member experience.

Riverside Yacht Club operates with a total annual revenue of \$8 million, including \$2.7 million from food and beverage operations. The Club continues to invest in its long-term infrastructure, with a planned full replacement of 165 marina slips to be phased over several years at an estimated cost of \$15 million.

The clubhouse is closed during the month of January, while administrative offices operate year-round.
