

A highly respected multispecialty group in central Connecticut seeks a BE/BC ASOPRS fellowship-trained oculoplastics specialist to meet increasing demand. The ideal candidate will possess a strong interest in the surgical management of a broad range of functional and cosmetic oculofacial conditions. We are looking for someone to join our collegial team who shares our commitment to providing the highest level of patient care in a professional, compassionate manner.

Practice Highlights:

- A well-established practice of 9 ophthalmologists and 3 optometrists, representing a variety of sub-specialties including cataract, cornea, glaucoma, oculoplastics, medical retina, and uveitis.
- Two large, fully equipped, state-of-the-art offices in Farmington and Glastonbury, each with an optical shop (Consulting Optical)
- Excellent support staff
- Surgeries are performed at hospital outpatient, ambulatory, and office-based facilities, with the opportunity to collaborate with dermatology, otolaryngology, and OMFS at Hartford Hospital and UConn Health.
- Outstanding referral network
- Located in the Hartford suburbs, a great location to raise a family with excellent public and private schools
- Outstanding work/life/income balance

Benefit Highlights:

- \$325,000 Base Salary plus an incentive bonus
- 401(k) plan, profit-sharing, professional dues, CME stipend, malpractice insurance, as well as medical, dental, life, and disability insurance
- Paid flexible hospital call
- Partnership track with very reasonable buy-in (no goodwill) to the practice and optical shops
- Opportunity exists for ownership shares in one of several local ASCs.
