

# University of South Florida Obstetrics and Gynecology

## Minimally Invasive Gynecological Surgery

The Obstetrics and Gynecology Department is ranked **#1** in Florida and **#5** in the nation by U.S. News and World Report.

The Department of Obstetrics and Gynecology at the University of South Florida (USF) is actively recruiting to fill one open academic position within the division of Gynecologic Specialty Services. This board-eligible/certified, fellowship-trained, minimally invasive gynecologic surgeon will join our growing, busy division. Preference will be given to a candidate with academic experience and expertise to help grow the Gyn Specialty Services division and assist with establishing a MIGS fellowship. The goal of the Gynecologic Specialty Services Division is to encompass faculty with diverse backgrounds and levels of experience and complementary skills.

The primary focus of the MIGS subspecialist will be the clinical care of endometriosis, fibroids, and chronic pelvic pain patients at USF, supervision and teaching of fellows, OBGYN residents, and medical students, and conducting clinical research. Clinical responsibilities include office-based procedures and gynecologic surgery.

### Responsibilities:

- *Teaching*- Teach medical students and residents by lecture, rounds, and clinical activity in the patient office, labor and delivery, and the operating suite.
- *Clinical*- Teach and mentor students, residents, and fellows through lectures, clinical instruction, and surgical training, shaping future physicians and subspecialists.
- *Other Duties*- Provide general gynecologic care, including minimally invasive gynecologic surgery in the inpatient and outpatient settings.

### Requirements include:

- Doctoral/Medical degree from an accredited institution or the highest degree appropriate in the field of specialization with a demonstrated record of achievement in teaching, academic research, and service.
- Candidate must be Board Certified/Board Eligible in Obstetrics & Gynecology. Candidate must also have completed an AAGL MIGS fellowship. Special attention will be given to graduates of programs with a focus on chronic pelvic pain.
- Must hold or be eligible for a full, unrestricted Florida Medical License. The candidate must maintain licensure, USF Health faculty credentials, and good standing on the medical staff at assigned hospitals.
