 - Accomplish assigned task and able to engage in another task without direction.
 - Demonstrate initiative at job sites.
 - Maintain a clean, safe, and efficient work area.
 - Perform solid acceptable work consistently.
 - Ability to solve math problems quickly and accurately.
 - Possess aptitude for learning and application of newly acquired skills.
 - Assist Carpenter Foremen & Carpenter Supervisors.
- * See 'Key responsibilities' supplement (operations manual).

Working Conditions:

Carpenters usually work with or around other construction tradesmen. They work indoors and outdoors, often in tight places, and must be able to adapt to a wide variety of conditions. All carpenters have to do considerable climbing, lifting, and carrying to perform their work. They must also be able to do a great deal of reaching, balancing, kneeling, crawling, and turning.

Education and Training:

To become a Carpenter one must demonstrate proficiency as a Carpenter Apprentice and as a craftsman must illustrate an average knowledge of all facets of a particular trade and do noticeably good work. A Carpenter should have full knowledge of carpentry tools and skills. Typically, a Carpenter has a minimum of 3+ years in the trade.

Advancement potential:

To become a skilled Carpenter, training is essential. It can be acquired informally through "learning-by-working," through company on-the-job training programs, by attending trade or vocational/technical schools; through registered labor-management apprenticeship programs, or a combination of the above. It is generally accepted that the more formalized training programs give more comprehensive skills training. Recommended high school courses include algebra, general science, mechanical drawing, English, blueprint reading, and general shop. A carpenter who exhibits above-average proficiency in the trade and consistently demonstrates initiative and leadership, gets the job done properly and on schedule, and who works to improve his/her skills will often be in line for promotion to Carpenter Foreman.

Job Type

Full-time

Salary

\$20.00 - \$30.00 per hour
