

Assistant/Associate Professor of Psychology. The Department of Psychology at Georgia State University invites applications for **two tenure-track** positions at the Assistant and/or Associate Professor level in our Clinical Psychology Graduate Program (<https://psychology.gsu.edu/graduate/>). Our program has been continuously APA-accredited since 1973 and operates under the scientist-practitioner training model. The positions could begin as early as January 2027.

Area of research specialization within clinical psychology is open. We are interested in collaborative candidates with established and active programs of research that can contribute to and complement program, department, and university strengths (see faculty areas of expertise here: <https://psychology.gsu.edu/directory/>). We particularly welcome applications from individuals with expertise in assessment, intervention, psychopathology/mental health, and/or social/emotional functioning. We are excited to review applications from candidates who use any of a range of rigorous methodologies and analytic approaches, including those who work with diverse populations across the lifespan and in varied contexts. Strong candidates who can bridge program areas (e.g., clinical-community psychologists, developmental psychopathologists, neuropsychologists) would find a welcome home in our department. The successful candidate will be expected to maintain a productive research program, mentor graduate and undergraduate students in research, supervise clinical training, and teach foundational undergraduate and graduate courses, such as assessment and/or psychopathology.

About the Department of Psychology: Bolstered by a strong external funding record, high-impact faculty publications, a diverse and large undergraduate major, and a nationally competitive doctoral program, the Department of Psychology (<https://psychology.gsu.edu>) is committed to conducting cutting-edge scholarship; providing excellent training and education; and serving our students, college, university, and community. Our vibrant and interdisciplinary department's work aligns tightly with the university's strategic plan (<https://president.gsu.edu/four-pillars/>), which emphasizes building Georgia State's strengths as a center for research and innovation, promoting student success, supporting the college to career transition, and advancing identity and placemaking initiatives. The Department of Psychology is also home to the GSU Psychology Clinic (<https://psychologyclinic.gsu.edu>). This doctoral training clinic provides high quality and affordable psychological services to adults, children, adolescents, families, and couples from the greater Atlanta area.

About Georgia State University: Georgia State University is an enterprising public R1 university located in downtown Atlanta, one of the largest and most racially/ethnically diverse cities in the Southeastern U.S. with access to a metropolitan population of over 6 million. A national leader in using innovation to drive student success and research growth and enrolling and graduating one of the most diverse student bodies in the nation, Georgia State University provides its world-class faculty and more than 50,000 students exceptional research, teaching, and learning opportunities. The university has a rich array of interdisciplinary schools, initiatives, and centers that offer ample

opportunities for collaboration. These include the [School of Public Health](#), the [Center for Research on Interpersonal Violence](#), the [Georgia State/Georgia Tech Center for Advanced Brain Imaging](#), the [Gerontology Institute](#), the [Language Research Center](#), the [Center for Research in Atypical Development and Learning](#), the [Georgia State University/Georgia Institute of Technology/Emory University Center for Translational Research in Neuroimaging and Data Science](#), the [Center for Behavioral Neuroscience](#), and University initiatives in [Language & Literacy](#) and [Brains & Behavior](#). Many faculty also collaborate with colleagues at clinical sites that include [Grady Health Systems](#), [Emory Brain Health Center](#), and [Children's Healthcare of Atlanta](#).

Application Procedure: Interested individuals should submit the following via <https://facultycareers.gsu.edu/postings/6810>:

1. A letter of application that discusses their (1) program of research/scholarship, (2) professional accomplishments and future goals, and (3) philosophy of teaching a diverse student body and evidence of teaching effectiveness.
2. Applicants should also provide a description of their clinical experience and interests. In this statement, they should identify the requirements for licensure in the state of Georgia (see <https://rules.sos.ga.gov/qac/510-2>) that they currently meet and/or their plans for completing unmet requirements.
3. A curriculum vitae and up to four representative publications.
4. Names and contact information of three professional references. Letters will be requested for candidates who are invited for a screening interview and should highlight the candidate's expertise and training that make them distinctively qualified for the position.

A Ph.D. or equivalent advanced degree in clinical psychology is required at the time of appointment. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, or status as a protected veteran.

Review of applications will begin August 15, 2026 and will continue until positions are filled, with anticipated start dates as early as January 2027. An offer of employment will be conditional on background verification.

Please contact the search chair, Dr. Erin Tone at etone@gsu.edu with any questions.
