

Are you the kind of leader who takes pride in building something that lasts? Do you enjoy running jobs, leading crews, and seeing real progress in the field every day? If so, Trident Environmental is looking for you.

We're a growing environmental contractor focused on erosion control, land stabilization, and infrastructure protection—and we're building a team of high-performers who want to grow with us.

## Why Trident Environmental?

- **Weekends off** – work hard during the week, enjoy your time at home
- **Fast-growing company** – real opportunity to move up and make an impact
- **Strong team culture** – we work hard, have fun, and win together
- **Meaningful work** – protect land, waterways, and communities
- **Competitive pay + growth path** – we reward performance

## What You'll Do

- Lead and manage erosion control crews in the field
- Oversee installation of BMPs (silt fence, hydro mulch, matting, etc.)
- Coordinate daily jobsite operations, materials, and equipment
- Ensure projects are completed safely, on time, and to spec
- Communicate with project managers, inspectors, and clients
- Train and develop crew members

## What We're Looking For

- Experience in erosion control, dirt work, or site construction
- Proven ability to lead crews and run jobs independently
- Strong work ethic and attention to detail
- Ability to read plans and understand site layouts
- Someone who takes ownership and gets the job done right

## Bonus Points If You Have

- Experience with hydroseeding or slope stabilization
- Knowledge of SWPPP requirements
- Equipment operation experience

---

**At Trident Environmental, you won't just have a job—you'll help build something.**

If you're ready to grow with a company that's gaining momentum and values people who show up and lead, we want to talk.

**Apply today and let's build something great.**
