

University of Virginia
Pediatric Otolaryngologist

The Department of Otolaryngology-Head and Neck Surgery at the University of Virginia seeks applicants for a Pediatric Otolaryngology position. The candidate will provide and direct clinical care for children with complex head and neck problems as well as treating patients in the outpatient pediatric clinic. An active role in the education and training of medical students and department residents will be expected. This position will be open to Assistant and Associate Professor candidates and open track. Salary, rank, and tenure status are dependent upon qualifications and experience and are subject to the [School of Medicine Promotion and Tenure guidelines](#).

Candidates must have a strong interest in a career in academic medicine. Preference will be given to candidates who bring unique clinical expertise and are engaged in teaching and clinical research.

The University of Virginia is located in Charlottesville, a setting with natural beauty and significant historical relevance. The Department of Otolaryngology-Head and Neck Surgery has a long and rich history, which has continued to this today. The University of Virginia Children's Hospital has been ranked as the number one children's hospital in Virginia for five years running and there is strong collaboration with all specialties, which has provided the nucleus for significant growth of our pediatric program. Come help build the career you want and expand a program with an established foundation in a wonderful setting to live and work.

Qualifications:

Applicants must have a MD, be Board-Certified or Board-Eligible in Otolaryngology and have successfully completed a Pediatric Otolaryngology fellowship at the time of hire.
